# Woods

**CHERRY** is an elegant, rich wood and is prized for its beautiful graining. It will darken with age. Pin knots and mineral streaks may be found in this handsome wood.

**MDF** is an engineered wood product with extremely stable qualities, making it an ideal choice for painted finishes. The final result is a smooth and beautifully painted finish.

**MAPLE** has a smooth, uniform grain which has helped to make this wood very versatile. This popular wood may also contain mineral streaks and curly graining.

Arlington White Paint and Arlington Gray Paint Island

## STAIN

Century utilizes an environmentally friendly premium water-based UV cured finish. It provides a durable, lustrous finish while maintaining an overall consistent stain on the wood.

## PAINT

A water-based UV cured finish with an opaque color. Paint emphasizes and accentuates the rich detailing on each door which adds an elegant, classic look to the cabinetry.

## GLAZES

A hand applied finish added to either stained or painted doors. The glaze collects in the corners, grooves, and recesses of the door to highlight the unique qualities. The look can range from subtle to dramatic depending on the door style selected.

## VINTAGE

A translucent glaze brushed over the entire door and drawer front. This creates a tonal change to the color and, along with a subtle appearance of brush strokes, gives an aged vintage effect.

## DISTRESSING

Stained Distressed features - hand applied distressing techniques like bird pecks and scratches. It is further accentuated by glazing.

Paint Distressed features - sand through technique which exposes the underlying substrate and replicates a time-worn effect.

## Care & Cleaning Guidelines

The solid wood and wood veneer components used in the manufacturing of your cabinets are finished with a Water-Based UV process, that will hold up to continuous use for many years. The materials used in the finishing process are specially designed to meet the most stringent industry performance standards for resistance to moisture, grease, soap, detergents, and food stains. The following guidelines and suggestions should help keep your cabinetry looking beautiful for many years.

### General Cleaning and Care of Wood Cabinets

Remove any oil, grease, or soil, using a clean damp cloth of mild soap and water. Rinse with a clean damp cloth. Dry thoroughly with a soft lint-free cloth. DO NOT use steel wool, soap pads, polishing wax or cleaners containing bleach, ammonia, harsh detergents, and abrasives. All of these can remove the factory-applied finish and thus void the warranty. Routine cleaning can help prevent permanent damage from build up of grease and smoke. Excess moisture can also damage cabinets. The most common areas for moisture build-up are around the sink, range, dishwasher, oven, and baseboard. Immediately dry surfaces with a clean cloth. Over time cabinet finishes may either darken or lighten depending upon lighting and should be considered normal.

### To Repair Nicks and Scratches

Use a matching 'Touch up Kit' which is designed to match the cabinet finish. A touch up stick should have been included with your cabinets. If you don't have one, please contact your Century Cabinetry dealer. Rub the soft fill stick over the scratched area and wipe away the excess with a clean soft cloth. Never use sand paper or any other material to even out a scratch, as it will damage the finish. If scratches or nicks are still visible after using the touch up stick, a touch up marker can be supplied.

### Care of Cabinet Interiors

Century Cabinetry's shelves are made of melamine laminate which is a material resistant to scratches, stains, and water penetration. To remove food residue or grease, use any common dishwashing liquid (not detergent) or a solution of mild soap and water. Wipe clean with a clean soft damp cloth and dry thoroughly. Wipe up spills and dry immediately.

## 10 Year Warranty

Century Cabinetry, Inc. warrants its products to be free from defects in material or workmanship under normal use for a period of 10 years from date of purchase by the original consumer purchaser and is not transferable to subsequent homeowners. Should defects in material or workmanship arise during this warranty period, Century Cabinetry, Inc. will replace or repair, at its discretion, the defective cabinet, material or component.

This warranty does not cover products that are misused, abused, neglected, modified, improperly stored, incorrectly installed, or subjected to extremes in moisture or temperature.

This warranty covers only parts and materials of the products manufactured by Century Cabinetry, Inc.. Not covered under this warranty are countertops, appliances, plumbing fixtures, etc or labor costs to remove or re-install materials or related items such as plumbing fixtures, countertops, appliances...

Variations in color and grain are a natural characteristic of wood. Changes in color to finished wood and painted products can occur due to exposure to light and other environmental factors. These variations and color changes are not deemed defective and therefore are not covered under this warranty.

Variations in Century Cabinetry's hand applied finishes and glazes is what gives each piece it's distinctive look and these variations are not considered to be defects in material or workmanship.

Century Cabinetry may modify product due to supplier availability and as changes or improvements are implemented, but is under no obligation to make these changes to previously manufactured product. If a warranty claim is filed after a product or finish becomes obsolete; Century Cabinetry reserves the right to honor the warranty in the following ways:

- a. To replace the affected component with a new component of the same style

- b. To replace the affected component with any other component(s) to achieve a similar appearance with a style that is comparable in appearance, color, design or construction based upon current product offerings.

If components are replaced, Century Cabinetry cannot guarantee that the finish of these items will be an exact match to the finish and appearance of the original purchased components.

THIS WARRANTY IS THE EXCLUSIVE WARRANTY OF CENTURY CABINETRY AND IS IN LIEU OF ALL OTHER WARRANTIES, EITHER EXPRESSED OR IMPLIED. IN NO EVENT SHALL CENTURY CABINETRY BE LIABLE FOR CONSEQUENTIAL, INDIRECT OR INCIDENTAL DAMAGES RESULTING FROM THE INSTALLATION, USE OR FAILURE OF ITS PRODUCT.

### Implied Warranties

This warranty is only valid in the United States of America. To the extent permitted by law, any implied warranties, including the implied warranties of merchantability and fitness for a particular purpose, are limited to the duration of this expressed warranty. This warranty excludes any incidental or consequential damages. Some states do not allow limitations on how long an implied warranty lasts, so the above limitations may not apply to you.

### Making a Claim

To make a claim under this warranty, the purchaser must contact Century Cabinetry and report said defects. If you have difficulty obtaining assistance, write to Century Cabinetry Inc. 220 Phillips Road, Exton, PA 19341. Attn: Customer Warranty/Service Department.

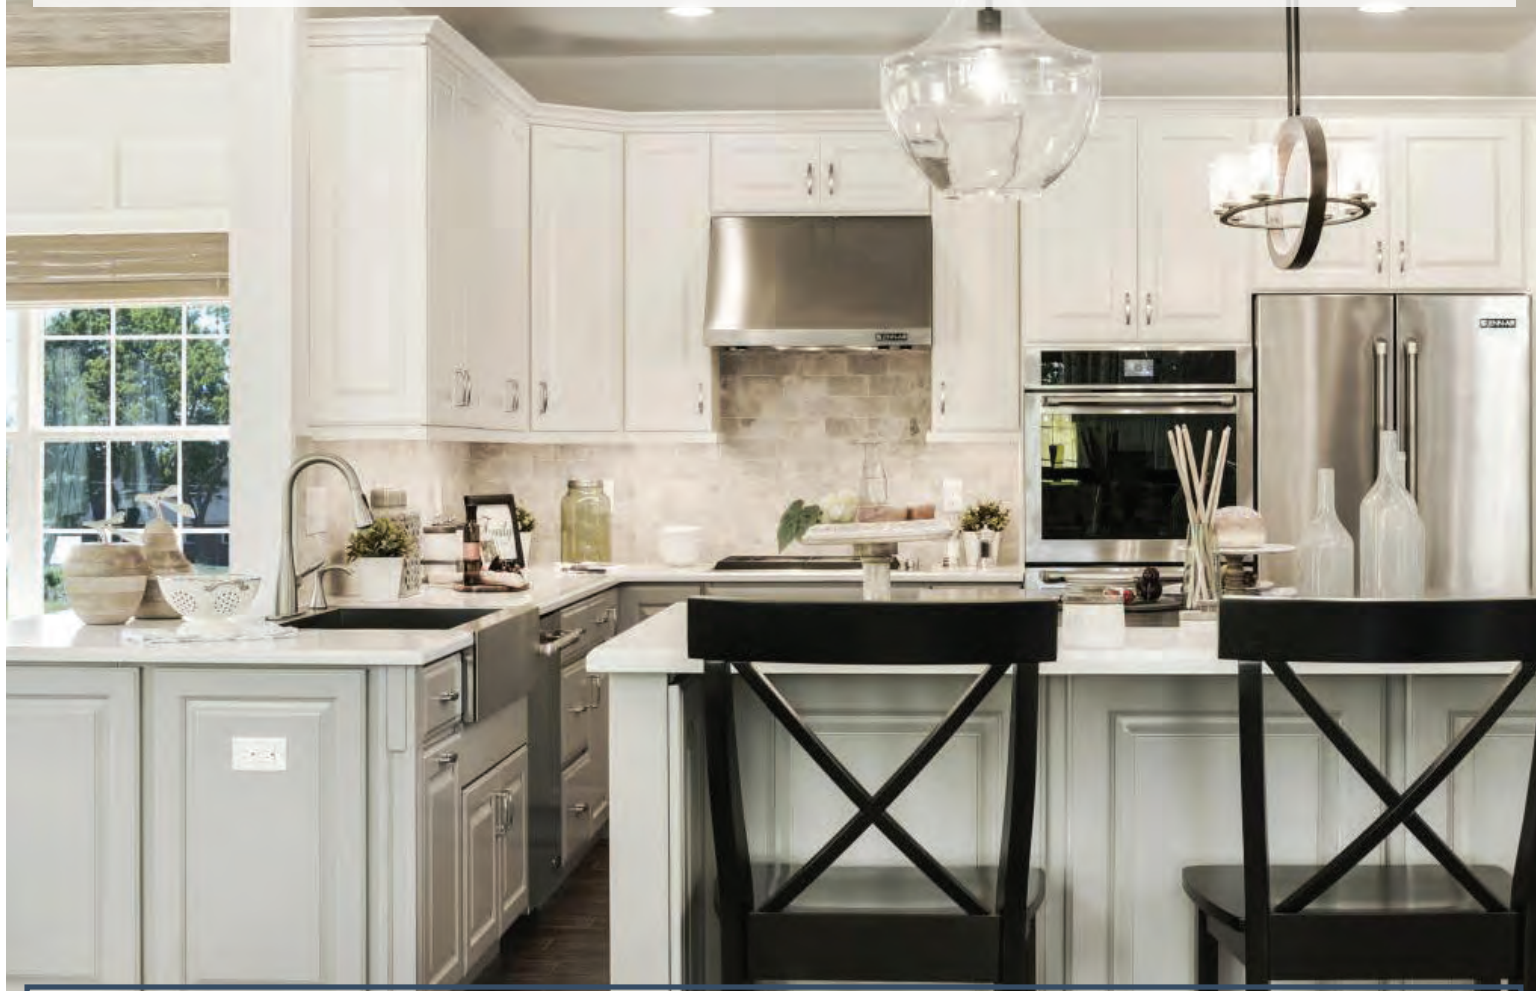

### Warranty Effective Date

This warranty is effective as of April 1, 2012 and covers all cabinets ordered on or after this date.

# CENTURY CABINETRY

Founded in 1976, Century Cabinetry has followed three simple objectives: **Quality, Style, and Value.** These objectives continue to guide us each and every day in our mission to satisfy our customers by providing workmanship and reliability expected of fine cabinetry.

We proudly manufacture all of our Century Cabinetry in the USA. Our wood mill and assembly plants are located in Pennsylvania. Our skilled craftsmen provide our clients with a product that they can be proud to show in their home. To learn more about Century's products, door styles, colors, and overall selection, please visit our website at [www.centurycabinetry.com](http://www.centurycabinetry.com)
